

# 61% Hoopla Usage Increase

eLibrary usage is gaining steam with a 61% usage increase in Hoopla alone in Q3 of 2017.

# Get Started with Lorain Public Library System's eLibrary

A traditional trip to the library to take out a book or movie is still the most popular way for visitors to use library services. Increasingly, however, use of the eLibrary is gaining steam. Through the third quarter of 2017, Hoopla usage alone rose 61 percent. Patrons are increasingly downloading or streaming items at no charge to a computer or mobile device. So, if your resolution this year was to learn a new skill and you aren't a raving fan of e-technology yet, then this tear-out reference sheet is designed for you.

To sign up for a library ecard that will access only eMedia (you must live, work, own property or attend school in Ohio), visit [www.lorainpubliclibrary.org/ecard-form](http://www.lorainpubliclibrary.org/ecard-form) to apply. In addition, if you would like to learn more about this technology, LPLS online and website calendar listings feature how-to sessions. And, as always, you can call, email or stop in to a system location with questions. (Note that a regular card can also be used to access eMedia.)
