## Combating the "Summer Slide"

### Ways to Keep Your Child's Skills Up this Summer

Ah, summer - when a child's fancy turns to thoughts of sleeping in, playing all day and NO HOMEWORK! But just because kids are out of school doesn't mean learning should stop. Years of research show that "summer slide," or loss of skills learned in the previous school year during the long break, occurs when children lack learning experiences in the summer.

The good news is, learning experiences can be found everywhere, and the library is here to help!

#### Choosing What to Read

Make sure your kids continue to read throughout the summer to keep those comprehension and fluency skills up. There are no limits to what can be read or how it is experienced. Audiobooks provide great opportunities to increase listening skills and comprehension. Nonfiction books have great vocabulary. Graphic novels provide a rich visual experience and an alternative for kids who don't enjoy reading a lot of text. Check out an eBook on a mobile device on a family road trip. The important thing is to let children choose their own books in the summer, even if it means they are reading below grade level or rereading a book several times. Fostering a love of reading will help motivate them to work harder as reading becomes more difficult.

#### Focus on All Subjects

"Summer slide" affects more than reading skills. Math, science and social studies skills can also fade unless new and fun ways are found to engage learning while away from school. Summer is a great time to help your child explore interests through books. Get some books on gardening and grow your own vegetables this summer. Check out some cookbooks and practice some everyday math skills while trying out new recipes. Have a child who wants to play Minecraft all day? Try some books that will get him or her thinking about creating new mods and learning how video games are made. This summer marks the 70th anniversary of the end of World War II. Check out a children's documentary and discuss what it would be like to grow up in a country at war.

*The possibilities are endless this summer, so stop in at any Lorain Public Library System library and let the experience begin!*

# Every Hero Has a Story this Summer at Your Lorain Public Library System

## Get Excited about our Summer Reading Program

Lorain Public Library System's Summer Reading Program is for all ages. The 2015 theme is heroes. From superheroes to everyday heroes, it's going to be a fun, educational summer.

The Armstrong Air & Space Museum will be presenting two programs throughout the system. Kids will love the interactive experiments at *Batman – Defying Gravity* and *Superman – Forces of Flight*.

## Win Books!

Summer Reading participants, birth through 12th grade, will earn a free book for every four hours of reading. Score up to five new books this summer!

Beginning Monday, June 8, stop by the library to pick up a reading record with instructions, or print one from online at [LorainPublicLibrary.org/Summer-Reading-Program](http://LorainPublicLibrary.org/Summer-Reading-Program).

Did you know that being read to also counts toward reading credit? Reading to someone or listening to audiobooks gets all listeners closer to each reading goal.

Once you read for four hours, bring your reading record to the library, turn in your reading slip and choose one book as a prize.\*

### Who Says Kids Have All the Fun?

Adults are encouraged to get in on the action too. Each library has its own unique adult Summer Reading Program. Contact the library for details.

### Success!

Last year, over 2,000 teens and children participated in our Summer Reading Program. Their combined efforts added up to over 36,000 hours of reading! Over 700 adults read more than 6,000 books. Congratulations to all. We hope you'll help make this year a success too!

*\*Book prizes available while supplies last.*

### Change Of Pace Book Discussion

**All The Light We Cannot See**  
By Anthony Doerr

The story of a blind French girl, her father and a young Nazi soldier during the World War II German occupation of France. Ten years in the writing, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times). Copies of the book are available at the library.

# Summer Reading for the Whole Family

## Why It's Important for Everyone to Participate

While most of the research regarding summertime academic skills loss has been done on elementary students, it has become increasingly clear that to gain the most benefits from library visits, the whole family needs to be involved.

There are many programs at the library for adults. Events are designed so adults can explore hobbies and interests, both with and without children. The best way to foster young readers is by becoming a family of readers, and what better place to do that than at the library?

Many of the teens at the Lorain Public Library System volunteer at the annual Summer Reading Program kickoff event. Some teens participate in Book Buddies, a program that teaches them how to read with young children to strengthen these early readers' skills. Those who become fans of the library as teenagers tend to continue benefiting from the library for years to come.

### Reading to Learn

Until about the third grade, kids are learning to read. After that, they are reading to learn. This fact becomes critical in middle and high school. This is when students learn to take information from sources and use it in research papers and essays on literature. So, how does summer reading for teens improve writing skills?

### Reading to Improve Writing Skills

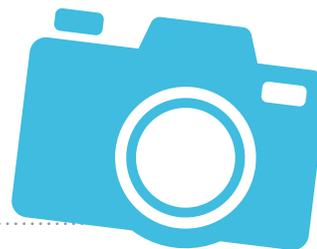

As students read for pleasure, they become exposed to many different styles of writing and new vocabulary, all of which can help in writing. Listening to an audiobook can help readers that get stuck on words they don't know. By listening to a complete sentence or paragraph, they move on to characters and plot instead of stopping at every vocabulary challenge. Understanding character motivations is a crucial skill in writing essays about literature.
